

Field Underwriting Guide

**YOUR GUIDE TO
UNDERWRITING IMPAIRMENTS**

MAY 2017, WEB EDITION

INTRODUCTION

This Field Underwriting Guide is designed to provide you with a comprehensive reference tool to life insurance underwriting at John Hancock. The guide is organized into two sections:

Part I

Underwriting Guidelines

Provides details about vendors, as well as insight into John Hancock's smoking definitions, build ratings, and financial underwriting guidelines.

Part II

Impairment Guide

Provides information your John Hancock underwriter will need up front to assess specific medical and non-medical risks as well as factors that will impact the decision.

For further guidance in field underwriting, please also look for the following flyers on your John Hancock producer website:

- **Best Class Underwriting Criteria for Permanent and Term Products**
- **Routine Underwriting Guidelines**

If you have any questions, please contact your John Hancock underwriter. Also check our interactive Field Underwriting Guide on your John Hancock producer website for information that is always current.

Part I – Underwriting Guidelines

POLICY

Approved Vendors

The following are John Hancock’s approved vendors for fulfilling medical requirements associated with life insurance applications. Please also note payment guidelines, and answers to questions we typically receive about this topic.

EXAMINATION VENDORS	APPS	800-727-2101 or appslive.com
	EMSI	800-872-3674
	ExamOne	800-768-2056 or examone.com
	Superior Mobile Medics	800-898-3926
APS VENDORS	EMSI	800-530-0560
	ExamOne	800-768-2056 or examone.com
	Express Imaging Services, Inc.	1-888-846-8804
	Jetstream APS	310-826-3759, ext. 229 or jetstreamaps.com
	Parameds.com	parameds.com
	ReleasePoint (WFI Inc.)	800-999-9589 or releasepoint.com

FREQUENTLY ASKED QUESTIONS

1. Will John Hancock pay for medical requirement fulfillment services arranged by a firm or producer?

Yes, we will pay for such services if the following two conditions are met:

- The requirements are ordered to meet our underwriting guidelines, and
- The requirements have been received in connection with the underwriting of a formal John Hancock life insurance application.

NOTE: John Hancock will make direct payments only to the medical requirement fulfillment vendors that are contracted with John Hancock and included on the list of approved vendors above. **See question #3** for more information on reimbursement guidelines.

2. Will an approved vendor share a copy of the APS with the firm or producer ordering the APS?

Yes, an approved vendor will share a copy of the APS as long as the ordering producer or firm supplies the vendor with its own HIPAA authorization form (signed by the proposed insured) that gives the vendor permission to release the medical records to the producer or firm.

3. Will John Hancock reimburse a producer or firm for APS fees?

As noted in question #1, John Hancock will pay for underwriting requirements that are required by us and have been received in connection with the underwriting of a formal John Hancock life insurance application.

However, please note the following:

- Producers or firms that choose to use a medical requirement fulfillment vendor that is not one of our approved vendors will do so pursuant to their own business arrangements.
- Upon receipt of a request for reimbursement of APS fees associated with medical requirements arranged by a producer or firm from a non-approved vendor, we will reimburse the producer or firm for such expense, subject to rates and standards deemed acceptable by John Hancock.

4. Will John Hancock accept a paramedical exam from a non-approved vendor?

As noted in question #1, John Hancock will pay for underwriting requirements that are required by us and have been received in connection with the underwriting of a formal John Hancock life insurance application.

5. How should a reimbursement request be submitted?

Submit your requests for reimbursements by completing *Request for Reimbursement – Medical Fees*. If this is your first reimbursement request, please also provide a completed W-9 form.

Submit reimbursement requests via mail or email:

MAIL:

Medical Fee Department
John Hancock Life Insurance Company
27 Drydock Avenue
Boston, MA 02210-2377

EMAIL:

medfees@jhancock.com

Most reimbursement requests are processed within 30 days from the time we receive the request, formal application and medical requirements.

Please note that payments to individual producers (non-incorporated entities) are subject to information reporting under IRS section 6041, and a separate 1099-MISC will be issued for these reimbursed fees. This 1099-MISC will be in addition to the 1099-MISC a producer receives for other compensation from John Hancock. Although we must report the reimbursements as gross income to the producer, a producer may be able to take a business expense deduction for the fees paid to providers. Producers should consult their own tax advisors.

IMPORTANT PAYMENT GUIDELINES

- **John Hancock will make direct payments only to the medical requirement fulfillment vendors that are contracted with John Hancock** (see accompanying approved vendors list).
- **Producers or firms choosing to use medical requirement fulfillment vendors not included on the list of John Hancock approved vendors will do so pursuant to their own business arrangements.**
- **Upon receipt of a request for reimbursement of fees associated with medical requirements arranged by a producer or firm from a non-approved vendor, John Hancock will reimburse the producer or firm for such expense, subject to rates and standards deemed acceptable by John Hancock** (see below for further details).

REIMBURSEMENT FEE GUIDELINES

- **John Hancock will reimburse the fee charged by the doctor or medical facility to release the APS, up to a maximum of \$100.**
- **APS fees in excess of \$100 must be pre-approved by the John Hancock Medical Fees Department (medfees@jhancock.com).**
- **Reimbursements for any administrative service fees associated with the APS retrieval will be limited to \$17.**

Rated Build Chart

Use this chart to find the rating required for height and weight. The rating is shown in the horizontal line across the top of the chart.

Each cell of the chart is the maximum weight allowed for each rating. For any build over the chart maximum, an offer is doubtful. To pursue a possible highly rated offer, please contact a John Hancock underwriter.

HEIGHT	125%	150%	175%	200%	225%	250%	300%

Smoking Classifications

SUPER PREFERRED NON-SMOKER	Meets the Super Preferred criteria and has not used any form of tobacco or nicotine products within the last 5 years with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Super Preferred Non-Smoker rates if he/she smokes 12 cigars or less per year and microureanalysis is free of nicotine. ¹
PREFERRED NON-SMOKER	Meets the Preferred criteria and has not used any form of tobacco or nicotine products within the last 2 years with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Preferred Non-Smoker rates if he/she smokes 12 cigars or less per year and microureanalysis is free of nicotine. ¹
STANDARD PLUS NON-SMOKER²	No tobacco or nicotine products in the past 12 months with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Standard Plus Non-Smoker rates if he/she smokes 24 cigars or less per year and microureanalysis is free of nicotine. ¹
STANDARD NON-SMOKER	No cigarette or e-cigarette use within the last 12 months and either: 1. Does not meet all Preferred or Standard Plus criteria or, 2. Uses other tobacco or nicotine products.
PREFERRED SMOKER	Meets the Preferred criteria but has used cigarettes, including e-cigarettes, within the last 12 months.
STANDARD SMOKER	Does not meet the Preferred criteria and has used cigarettes, including e-cigarettes, within the last 12 months.

1. Occasional cigar smokers who have tested positive for nicotine will be considered Standard Non-Smoker at best. The earliest we will consider an improved rate classification is on or after the first policy anniversary and is subject to full underwriting. Consult with your underwriter for further requirements.

2. Refer to the specific product technical guide to determine the availability of Standard Plus and for the ages where Standard Plus rates are available.

Note: Consult with your underwriter regarding our approach to proposed insureds who smoke marijuana or use it in any other form (e.g., via vaporizer, oral consumption).

Financial Underwriting Guidelines

Financial underwriting is a critical part of the underwriting process which examines the economic feasibility of the case at hand, and allows the underwriters to consider the insurable interest at the time of the application.

At John Hancock, we take a “purpose-driven” approach to financial underwriting. We recognize that life insurance may be purchased to cover many different needs. These needs can be broadly separated into personal (income replacement, estate planning, charitable giving, etc.) and business related (buy-sell, key person, etc.). Our underwriters use the following tools and approaches — among others — during the underwriting process to consider the purpose of the coverage and insurable interest. In all instances, our underwriters have the discretion to request additional financial requirements as they deem necessary.

FINANCIAL UNDERWRITING REQUIREMENTS

1. Telephone Interview

What is it? An interview with the proposed life insured where questions related to the life insurance application, such as occupation, health history and avocations are asked.

When is it required?

Age: 80-90 **Face Amount:** \$1,000,000 and up

Please note: A telephone interview may be requested at any age and amount at the underwriter’s discretion.

A team of dedicated John Hancock underwriting specialists schedule and perform the telephone interview with the applicant. Our underwriters are experienced in handling the sensitive information shared during the interview.

2. Financial Verification Supplements

What is it? The *Financial Supplement* is a form required by John Hancock that asks for a detailed breakdown of assets and liabilities and must be signed by both the proposed insured and the agent. Select and submit a *Financial Supplement* that is applicable to the sale. John Hancock’s underwriters will handle the rest of the financial verification process.¹

When is it required?

PERSONAL		BUSINESS	
AGE	FACE AMOUNT	AGE	FACE AMOUNT
Up to 65	\$7,500,001 and up	All Ages	All Amounts
66–79	\$5,000,000 and up		
80–90	\$1,000,000 and up		

For any asset type representing more than 25% of total assets, copies of the latest statements of values are required, e.g., copies of insurance policies for jewelry or art, or quarterly statements for investment portfolios.

1. In some scenarios, additional information to support the representation of assets and income may be required, such as brokerage statements.

3. Request for Tax Transcript – IRS 4506T-EZ

In some cases, our underwriters may require additional documentation to verify the financial information disclosed in the life application. While not a routine requirement, in cases where the underwriter is unable to obtain this verification through other sources, the submission of a completed IRS form 4506T-EZ may be requested. In cases where a signed 4506T-EZ is requested and submitted, John Hancock will use this signed authorization to request the IRS tax returns via a secure and confidential interface and will receive this information within 24–48 hours. Form 4506T-EZ is available as an optional form in our application kits. If requested by the underwriter, please have your client enter the last two years (i.e., tax period to be filled in) in Section 6 on this form.

FINANCIAL UNDERWRITING REVIEW

In addition to the above requirements, the underwriter also takes into account the following:

1. Insurable Interest/Insurable Loss

The first consideration in financial underwriting is to establish that an insurable interest exists. The concept of insurable interest is fundamental to ensuring that the insurance applied for makes economic sense. We consider insurable interest as existing when the owner (if other than the insured) and the designated beneficiary have a financial interest in the continued life of the insured and are able to demonstrate a measurable financial loss should the insured die prematurely. The loss should equal or exceed the requested insurance amount.

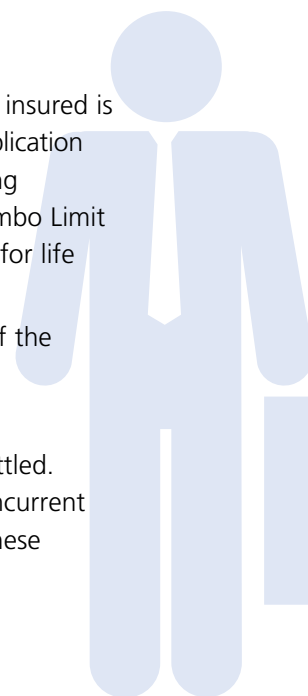

The underwriter will examine the amount of potential loss suffered by an owner/beneficiary in the context of the requested death benefit, purpose of coverage and financial profile (including the ability to pay ongoing premiums). It is the risk of loss that helps the underwriter quantify the amount of insurable interest and ultimately justify the requested death benefit.

2. Inforce and Settled Policies

Understanding the complete picture of the inforce and applied for coverage on the proposed insured is an important part of the financial underwriting process. Inforce coverage disclosed on the application must include any settled or sold policies. Our underwriters include settled policies in determining justification of the total amount of insurance in force and the ability to pay, as well as the Jumbo Limit for reinsurance requirements. Providing incorrect or incomplete information in an application for life insurance, even if it is unintentional, is misrepresentation.

Our underwriters consider several factors when there are existing settled policies on the life of the proposed insured:

- The overall financial status of the proposed insured.
- The duration of the policies at the time they were settled or sold, or are currently being settled. John Hancock will not participate in new applications for life insurance associated with concurrent early duration settlements, or where a history of frequent settlement activities exists. For these purposes, “early duration” is defined as less than five years from policy issue date.

3. Ability to Pay/Affordability

As part of the financial review of a case, an underwriter must determine if the applicant can afford to pay the premiums for the requested coverage and all inforce policies. This is usually established by reviewing the proposed insured's application statement as to the source of the premium and the appropriate illustration. If the source is other than income, the proposed insured is encouraged to present the specific source of funding and an explanation of why this source is being used. Premiums generally are not expected to exceed 10–25% of gross income. In general, the higher the available disposable income, the greater premium to gross income ratio that would be acceptable.

In cases where the source of the premium is other than the insured on personal applications, a letter of explanation to include the reason for the third-party funding and the source of the funds is required. Additional details regarding the third-party source may be requested at the discretion of the underwriter.

4. Trust Documents

Reviewing trust documentation can assist us in determining the presence of insurable interest.

The following documents are required during the trust review process:

- For any case where a trust is identified as being the owner/beneficiary, we need a completed *Trust Certification* form, regardless of whether a properly executed trust agreement has been submitted or not.
- In addition, for all applications on proposed insureds age 70 and older,² a copy of the executed trust document is required for our review.
 - Please note that on cases age 70 or older where the funding is to be accomplished via a 1035 Absolute Assignment or the trust has been executed prior to January 1, 2005, we do not require a copy of the executed trust, but will require a completed *Trust Certification* form.
- Prior to policy issue, our underwriters also review documents on certain policies including – but not limited to – trust, family partnership and LLC agreements.

2. Please note that John Hancock reserves the right to request a fully executed copy of the trust regardless of the proposed insured's age.

FINANCIAL UNDERWRITING – CASE POSITIONING TIPS

Since you — as the agent — know your clients best, you are a key source of their financial information. A cover letter is recommended with all applications; it is your chance to explain the background of the sale, including:

- The specific purpose of coverage and how that amount was determined relative to the proposed insured's finances, including premium-paying ability (demonstrating premium to income relationship and/or premium to liquid net worth relationship).
- Clarification of any points that may not be obvious in the application including both medical and non-medical factors that the client or producer want to bring to the underwriter's attention.
- Total insurance: inforce (including any settled or sold policies), all pending coverage applied for, replacement details and the ultimate total line.
- Refer to the "Important Notes" column on pages 12 to 14 to see if there are any specific details about your case that you should include in your cover letter. The underwriter uses this information to justify the amount of coverage requested, and to make the most competitive decision right from the outset. Providing this information up front can streamline the underwriting process by reducing the need for additional information about the sale.

The charts on the following three pages provide an outline of some of the financial purposes and methods used by our underwriters in arriving at acceptable amounts of insurance. Please note that these are general guidelines; if you have questions about a specific case, contact your John Hancock underwriter.

GUIDELINES FOR AMOUNT — PERSONAL LIFE INSURANCE

Please note: all formulas and calculators provided are to be considered solely as a guide and are non-binding.

PURPOSE OF INSURANCE	UNDERWRITING FORMULA	IMPORTANT NOTES
Income Replacement	Age Factor x Earned Income 18–30: 30x 31–40: 25x 41–50: 20x 51–60: 15x 61–65: 10x 66–74: 5x 75+: individual consideration	<ul style="list-style-type: none"> For individuals whose personal income is low but future earnings' potential is high, it may be possible to consider higher amounts. Social Security, pensions and annuities are not considered earned income.
Estate Conservation	Usually based on Projected Net Worth x Estate Tax Rate (55%) <i>Maximum Projections</i> Based on a growth rate of 5–7% based on historical growth – higher or lower growth rates subject to individual consideration General Guidelines <ul style="list-style-type: none"> <i>Individual:</i> <ul style="list-style-type: none"> Up to 75% of life expectancy to a maximum of 20 years <i>Survivorship:</i> <ul style="list-style-type: none"> Based on the younger or healthier life Up to 75% of life expectancy up to a maximum of 20 years 	N/A
Bequest to Charity (Charitable Contribution)	Face amount = present value of future contributions to $\frac{3}{4}$ life expectancy or 20 years, whichever is less. We look for a track record of support and involvement.	Provide contribution record to establish pattern of support and involvement in the charity. Also, include details of any volunteer work with the charity to demonstrate the strength of the relationship.
Charitable Remainder Trust with Wealth (asset) Replacement Trust	Value of donated assets	Confirmation of actual value of assets is required.
Employee Benefits — Deferred Compensation	Insurable value = amount required to fund the benefits for each executive	Provide rules for participation, formulas used to determine individual amounts of coverage.
Dependent Spouse	<ul style="list-style-type: none"> 75–100% of the insurance in force on employed spouse subject to overall family financial situation and ability to fund policy If face amount exceeds 100%, we require a cover letter with explanation 	Require details of amount in force on employed spouse and household income, net worth.
Juvenile Insurance	<ul style="list-style-type: none"> Coverage should not usually exceed 50% of amount on parents Amount requested should be reasonable relative to insurance on parents and siblings (similar coverage) For face amounts over \$100,000 or those related to estate planning needs, gifting, or inheritance, approval will be on individual consideration basis taking into account all financial details Application must be signed by a parent or guardian with whom the child resides 	<ul style="list-style-type: none"> New York has legal restrictions on the amount of life insurance allowed on juveniles. Specifically, Section 3207 of the New York Insurance Law states that when a juvenile is dependent on the person(s) effecting the insurance, i.e., parents/guardian, then the maximum amount that can be written is: <ul style="list-style-type: none"> Ages Under 4.5 – maximum \$50,000 or 25% of the amount in force on the parent effectuating the insurance, whichever is greater Ages 4.5 to 14.5 – maximum \$50,000 or 50% of the amount in force on the parent effectuating the insurance, whichever is greater Washington has special legal restrictions for juveniles. Please contact your underwriter for details. Please contact your underwriter for other special rules.

GUIDELINES FOR AMOUNT — PERSONAL LIFE INSURANCE (CONTINUED)

Please note: all formulas and calculators provided are to be considered solely as a guide and are non-binding.

PURPOSE OF INSURANCE	UNDERWRITING FORMULA	IMPORTANT NOTES
Estate Equalization	<ul style="list-style-type: none"> Insurable value = up to 100% of the transferred asset subject to ability to pay For retroactive cases, insurable value = asset value at time of transfer indexed at a growth rate of 5% per year 	<ul style="list-style-type: none"> Value of total estate and value of asset transferred is required. For retroactive cases, proof of asset transfer and current value is required.
Personal Loan	100% of outstanding loan balance to creditor with remainder to life insured's estate subject to collateral assignment	Require details of loan which include source, amount, purpose, repayment schedule and interest rate.
Annuity Maximization	Coverage should not significantly exceed income and estate conservation guidelines	<ul style="list-style-type: none"> Require details of annuity or other asset being replaced. Amounts to be considered must fit within guidelines for overall total line.
Future Inheritance (Adult)	Value of inheritance including a growth rate of up to 5% per year for a maximum of 10 years, subject to the insured's ability to pay	<ul style="list-style-type: none"> Cover letter is required with complete details, including age and coverage in force on benefactor(s) as well as in force and pending coverage on all siblings and information to support the insured's ability to pay and source of premiums.

GUIDELINES FOR AMOUNT — BUSINESS

Please note: all formulas and calculators provided are to be considered solely as a guide and are non-binding.

PURPOSE OF INSURANCE	UNDERWRITING FORMULA	IMPORTANT NOTES
Key Person	5–10 x Income (depending on circumstances)	<ul style="list-style-type: none"> • Following information may be required: income, role in organization, specialized skills, experience. • For the state of New York, please contact your underwriter for special requirements.
Buy-Sell	Percentage Ownership x Fair Market Value of the business plus a modest growth factor	Require percent ownership, fair market value of business, information as to whether other partners are insured.
Sole Proprietor	Fair market value of the business plus a modest growth factor	Require confirmation of ownership, fair market value of business, copy of buy out agreement for some cases.
Creditor — Business	Usually cover a percentage of outstanding debt equal to non-collateralized portion of debt up to 70%	<ul style="list-style-type: none"> • Insured must be a key person. • Require loan details: source, amount, purpose, duration, repayment terms.
Line of Credit Coverage	May be considered up to 70% of documented line of credit (LOC)	Require role of insured, source of LOC, details of LOC including amount, average amount utilized, purpose, repayment terms, interest rate.
Venture Capital and Start Up Companies	Face amount should not exceed key person limits when key person is the primary purpose. If loan, use creditor guidelines	Require confirmation that capital has been obtained. May also require, profitability projections, product/service descriptions, product cost/pricing, saleability, and experience/skills of management team.

Part II— Impairment Guide

Introduction

The following pages highlight some of the more common impairments we see at John Hancock.

They are organized into three sections:

1. Medical Impairments
2. Long-Term Care Rider
3. Non-Medical Risks:
 - Aviation
 - Avocations
 - Professional Athletes
 - Foreign Travel
 - Non-U.S. Residents

Use the information as a reference on what details the underwriter needs up front to assess specific conditions as well as factors that will impact the decision.

Contact your underwriter if you would like information about an impairment that is not included.

Each chart identifies the following information:

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>The name of the impairment, including a short description. Conditions are listed alphabetically (types of cancer categories listed alphabetically under "Cancer").</p>	<p>The criteria the underwriter uses to classify the risk.</p>	<p>These are the specific details and requirements (in addition to routine underwriting requirements) to include in your application package to help focus APS requests, ensuring the correct information is requested from the doctor up front. This will streamline the underwriting process by significantly reducing the need for subsequent reports, or other requirements, while also allowing the underwriter to make the most competitive decision from the outset.</p>	<p>The classification or rating necessary for the impairment based on the factors and requirements presented. Most conditions have a sample decision for a best-case scenario, typical case, and worst-case rating.</p> <p>Note: Standard Plus is available depending on product selection.</p>

Keep in mind this guide provides an overview of the factors the underwriter considers and the likely decisions. It is not a complete underwriting manual.

Please note that the likely underwriting decisions for medical impairments (pages 18 to 36) are applicable only to the life insurance portion of a policy. For details on likely underwriting decisions for the Long-Term Care rider, please see pages 37 to 40.

Acronyms and Abbreviations Used in the Guide

AAA	abdominal aortic aneurysm	GI	gastrointestinal
ABI	ankle-brachial index	GXT	graded exercise test
ADLs	activities of daily living (e.g., feeding, bathing, dressing)	HBsAg	hepatitis B surface antigen
APS	attending physician's statement	HIV	human immunodeficiency virus
ASD	atrial septal defect (congenital heart disorder)	HTN	hypertension
ATP	airline transportation pilot certificate	IADLs	instrumental activities of daily living (e.g., banking, shopping)
BP	blood pressure	IC	individual consideration
BUN	blood urine nitrogen	IDDM	insulin dependent diabetes mellitus
CABG	coronary artery bypass graft	IFR	instrument flight rating
CAD	coronary artery disease	LFT	liver function test
CFS	chronic fatigue syndrome	LIPIDS	fats in the blood (e.g., cholesterol)
CHOL	cholesterol	LTC	long-term care
CKD	chronic kidney disease	MRI	magnetic resonance imaging
CLL	chronic lymphocytic leukemia	MVR	motor vehicle report
COPD	chronic obstructive pulmonary disease	NIDDM	non-insulin dependent diabetes mellitus
CT	computed tomography	OSA	obstructive sleep apnea
CTA	computed tomography angiogram	PFT	pulmonary function test
CVD	cerebrovascular disease	PP	postpone
CXR	chest x-ray	PAF	paroxysmal atrial fibrillation
DWI	driving while impaired	PSA	prostate specific antigen
DVT	deep vein thrombosis	PTCA	percutaneous transluminal coronary angioplasty
EBCT	electron-beam computed tomography	PVD	peripheral vascular disease
ECHO	echocardiogram	Rx	medication
EEG	electroencephalogram	TEE	transesophageal echocardiography
EF	ejection fraction	TIA	transient ischemic attack
EKG	electrocardiogram	TST	treadmill stress test
ER	emergency room	VSD	ventral septal defect (congenital heart disorder)
FEV1	forced expiratory volume during first second		
FH	family history		

Medical Impairments

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Alcohol Excess Alcohol consumption considered as alcohol abuse, dependence, at risk, and heavy use.</p>	<ul style="list-style-type: none"> • Current age • Amount of alcohol declared • Any diagnosis of abuse or dependence • How long abstinent or consuming in moderation • Any relapses • Member of a self-help group • Treatment with medication • Any co-morbid conditions • Any medical complications • Driving history 	<p>Requirements: APS, paramed, MVR, blood test</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Provide details of medical treatment and any psychiatric/psychological report • Document any residential care, including dates and length of treatment • Clearly outline any favorable aspects such as continued employment, attendance at self-help groups, etc. • Alcohol Questionnaire 	<p>Ratings depend primarily on applicant's age, time since last use, and any co-morbid factors</p> <p>Best Case: Over age 30 and >5 years since last consumption: Standard Plus possible</p> <p>Typical Case: 150 to 200%</p> <p>Worst Case: Decline</p>
<p>Anemia A reduction in the number of red blood cells due to blood loss, failure of the bone marrow to produce sufficient cells, or premature destruction of the cells.</p>	<ul style="list-style-type: none"> • Type of anemia • Cause of anemia, if known • Treatment • Details of testing done and referrals to specialists (include dates, names of tests and doctors seen) • Blood test results • Medications • Any concurrent impairment 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Details of investigation and testing • Details of ongoing surveillance of the condition (including blood tests, electrophoresis) 	<p>Ratings depend on type of anemia. Decisions can range from Preferred to decline</p> <p>Iron deficiency anemia: Preferred possible when fully investigated and no underlying condition identified</p> <p>Aplastic anemia: Usually decline</p> <p>Hemolytic anemia: Standard to 200%, but rating could be higher depending on type and severity</p>

<p>Hepatitis B Hepatitis B is a disease caused by the Hepatitis B virus (HBV).</p>	<ul style="list-style-type: none"> • Date of diagnosis • Acute or chronic infection • Laboratory results (liver function) • If chronic, was a biopsy done? • Any alcohol usage or other medical conditions • Treatment and date(s) of treatment 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Laboratory results (including LFTs and hepatitis panel) • Sonograms, CTs, biopsy results 	<p>Best Case: Acute infection, over 6 months, HBsAg negative and liver functions normal: Standard or better</p> <p>Typical Case: Chronic infection (HBeAg+) with or without liver biopsy, untreated, depending on laboratory results and how long infection has been present: Possible 150 to 250%</p> <p>For chronic infection, treated, biopsy results (within the last 5 years), normal LFTs, mild to moderate: Standard to 200%</p> <p>Worst Case: Decline if having more than one alcohol drink per day, HCV co-infection, any finding of cirrhosis, biopsy done in the last 5 years shows severe inflammation and untreated</p>
<p>Hepatitis C Hepatitis C is a liver disease caused by the Hepatitis C virus (HCV).</p>	<ul style="list-style-type: none"> • Duration of the disease • Laboratory results • Has a biopsy been done? • Does the client use alcohol and if so, amount per day? • Treatment and date(s) of treatment 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Laboratory results (including LFTs and hepatitis panel) • Biopsy results • Sonogram and/or CT scan results 	<p>Best Case: Age 70 or older with normal liver function tests for the last 3 years: Standard. If favorable biopsy: Standard Plus or Preferred possible</p> <p>Typical Case: Current age 40–69, chronic infection, biopsy unavailable, untreated, age onset unknown and liver function tests not higher than 1.5 times normal range: 175 to 250% depending on age</p> <p>Worst Case: Decline if having more than one alcohol drink per day, HBV co-infection, any finding of cirrhosis, currently undergoing treatment, or biopsy done in the last 5 years showing severe fibrosis, treated or untreated</p>
<p>HIV Human immunodeficiency virus is a chronic viral infection that can weaken the body's immune system and may lead to significant infections, cancer, and premature death.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Documented favorable and stable clinical course, strict adherence and response to antiretroviral therapy (ART) (Minimum of 5 years of favorable treatment) • Absence of significant immunosuppression or co-morbid conditions (e.g. diabetes or coronary artery disease) • Tobacco use 	<p>Requirements: APS, lab results, including special blood testing if current results are not provided in APS (plus routine underwriting requirements; for details, visit the Field Underwriting Guide on John Hancock's producer website)</p> <p>Information to include: APS to include evidence of continuous care and details related to treatment</p>	<p>Offers will be limited to applicants ages 30 to 65, applying for a maximum of \$2,000,000</p> <p>If eligible for coverage, ratings range from 250% to 400% with a \$2 flat extra for younger ages</p>

MEDICAL IMPAIRMENTS

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Hypertension Primary, or essential hypertension, is the most common type affecting 95% of people with hypertension. The cause is unknown, but is thought to be the result of a complex interplay of factors that include demographic, genetic, and environmental factors. Secondary hypertension results from disorders of the kidney, endocrine, or nervous system.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Type of hypertension (essential or secondary to another impairment) • Medication/treatment • Response to medication treatment • Current BP readings and history of readings for past 2 years (demonstrate stable course) • Compliant with medical treatment and follow-up • Any concurrent impairment (e.g., CAD, stroke, kidney disease, diabetes, build) 	<p>Requirements: APS, paramed</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Record of blood pressure readings • Copies of any cardiac investigation • Details of risk factor modification • Active lifestyle 	<p>Rating depends on severity of hypertension</p> <p>May qualify for Best Class if well-controlled and compliant with medication</p>
<p>Kidney (Renal) Function Test Blood tests are done with a renal function panel to determine how well the kidneys are functioning. When results are out of normal range, it can indicate the possibility of a disease process.</p>	<ul style="list-style-type: none"> • How elevated is the BUN or serum creatinine? • Is the client taking any medication that may adversely affect the findings? • Is there any medical condition that may contribute to the findings? • What are the normal trends of the BUN and serum creatinine in the APS information? • Is this a new problem which has not been fully evaluated? 	<p>Requirements: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Results of full chemical profile • Quality of specimen • Results of urine findings • Details of any medical conditions that may contribute to the findings 	<p>Decision will depend on how elevated the lab findings are, any other medical conditions, any diagnosis for known history of abnormal renal functions</p> <p>Best Case: With only minimally abnormal renal function test in a client less than age 60 with no history of diabetes or poorly controlled blood pressure: possible Preferred</p> <p>Typical Case: With mildly abnormal renal functions, client over the age of 60, stable trend of renal functions in APS, no history of diabetes, poorly controlled blood pressure or other renal impairments: possible Standard to 150%, depending on age</p> <p>Worst Case: With mildly abnormal renal function, history of diabetes, poorly controlled blood pressure, other renal impairments or moderately abnormal renal functions: possible 200% to decline, depending on age</p>

MEDICAL IMPAIRMENTS

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Liver Function Test Blood tests are done with a liver panel to determine how well the liver is functioning and when results are out of normal range, it can indicate the possibility of a disease process.</p>	<ul style="list-style-type: none"> • How many liver functions are outside the normal lab range? • Is client taking any medications or using alcohol? • Is there a medical condition that is causing the elevation in liver function? • How long has this finding been monitored by the attending physician? • Is this a new finding which has not been fully evaluated with additional testing? 	<p>Requirements: APS, Hepatitis screens, all markers selectively</p> <p>Information to include:</p> <ul style="list-style-type: none"> • All laboratory tests • Any sonograms • Details of medications being taken • Amount of alcohol used • Results of any investigations for elevated liver functions 	<p>Decision will depend on how many liver function results are outside the normal range, the degree of elevation, any other medical conditions, any diagnosis for the elevated liver function finding</p> <p>Best Case: One liver function elevation, cause unknown up to 2 times normal range, no alcohol history, no associated medical history: Super Preferred</p> <p>Typical Case: Elevation of 2 liver functions, cause unknown up to 2 times normal range, no alcohol history, no associated medical history: Standard Plus</p> <p>Worst Case: Elevation of 3 liver functions, cause unknown up to 4 times or more over normal range: Decline</p>
<p>Myocardial Infarction</p>	<p>Refer to Coronary Artery Disease</p>		

MEDICAL IMPAIRMENTS

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Parkinson's Disease A syndrome characterized by involuntary tremor, rigidity of the muscles and slowness of body movements.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Medication/treatment • Response to medication treatment • Severity of the disease • History of falling or indications of dementia • Compliant with medical treatment and follow-up • Any concurrent impairment (e.g., depression) 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Details of type of Parkinson's • Type of treatment • Compliance and response to medication • Severity of the disease • Active and independent lifestyle (outline activities of daily living) 	<p>Best Case: Over age 80 with very mild symptoms, fully active and living independently, no medication can be considered Preferred</p> <p>Typical Case: Mild or moderate disease, over age 60, fully active and living independently, no complications, compliant with medication: 150 to 200%</p> <p>Worst Case: Severe disease: Decline</p>
<p>Peripheral Artery Disease (PAD)/ Peripheral Vascular Disease (PVD) A disease resulting from the presence of systemic atherosclerosis mainly in the abdominal and lower extremity arteries.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Medication/treatment • Response to medication treatment • Smoking status – if currently smoking this will have a greater impact on disease progression • Compliant with medical treatment and follow-up • Any concurrent impairment (e.g., CAD, CVD, diabetes, hypertension, build) 	<p>Requirements: APS, paramed, EKG – selectively</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Copies of any vascular and cardiac investigation • Details of any ongoing symptoms • ABI score • Details of risk factor modification • Active lifestyle 	<p>Best Case: Standard Plus with a normal ABI score. Preferred is possible over age 60 with a normal ABI score, Non-Smoker and favorable risk factors</p> <p>Typical Case: Clinical diagnosis of PAD, asymptomatic, no cardiac investigation, ongoing treatment, no ABI Age 50–69: 200% Age 70–79: 175% Age 80+: 150%</p> <p>Worst Case: Severe ABI: Decline Moderate ABI and under age 40: decline Smoker: Decline</p>
<p>Pulmonary Nodule A small shadow found on chest x-ray that may be caused by a benign cyst, infection or abscess, or granuloma.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Any treatment • Date treatment completed • Benign pathology • Reduced/eliminated risk factors (e.g., smoking) • Any concurrent impairment (e.g., emphysema or chronic bronchitis) 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Copies of tests • Details of follow-up • Demonstrated stability of lesion 	<p>If any malignancy, refer to Lung Cancer</p> <p>Pulmonary Nodule: Can be due to a benign cause. The underwriter must investigate thoroughly</p> <ul style="list-style-type: none"> • Size of nodule ≤ 4 mm: Standard possible with no postpone; Preferred possible after 1 year of stability • Size of nodule >4 mm: postpone 1–2 years with CT scan follow-up reports • Minimum two-year postpone for Smokers

MEDICAL IMPAIRMENTS

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Rheumatoid Arthritis This is an autoimmune disease which can affect not only the joints but also skin, eyes, lung, heart, blood, or nerves. This disease can affect everyone differently.</p>	<ul style="list-style-type: none"> Severity of symptoms Medications being taken Any limitations of daily activities No other significant medical condition(s) 	<p>Requirement: APS</p> <p>Information to include: Laboratory results</p>	<p>Best Case: Mild disease, under regular care of a physician, no other medical conditions and diagnosis 2+ years, well controlled on non-steroidal medications or immunosuppressants: Preferred possible</p> <p>Typical Case: 150 to 250% depending on whether moderate or severe, medications, duration, and age</p> <p>Worst Case: Client has limited mobility and/or has other significant medical conditions: Decline</p>
<p>Sleep Apnea Breathing stops for a short period during sleep.</p>	<ul style="list-style-type: none"> Current age Type of apnea (obstructive, central or mixed) Severity Treatment (CPAP or surgery) Compliant with treatment Date of last sleep study Current height/weight Concurrent impairments such as CAD, arrhythmia, PVD, hypertension Smoking history 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> Sleep studies, details of treatment and compliance Details of risk factor control (e.g., build, medications), and lifestyle modification (smoking, tranquilizers) 	<p>Mild disease and no complications: Standard Compliance with prescribed therapy could be Preferred</p> <p>Moderate disease:</p> <ul style="list-style-type: none"> Treated and compliant with therapy: Standard Untreated and no complications: 150 to 200% <p>Severe disease:</p> <ul style="list-style-type: none"> Untreated and no complications: 200% to decline Treated and compliant with therapy: Standard to 150% <p>Use higher ratings if applicant <age 50</p>

MEDICAL IMPAIRMENTS

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
<p>Stroke Permanent (>24 hours) damage to the brain caused by a vascular event, thrombosis, or hemorrhage resulting in permanent neurological deficit.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis and age at onset • Current symptoms/extent of neurological deficit • Cause of stroke • Treatment • Medications • Number of strokes • Smoking history • Active lifestyle • Blood pressure and cholesterol readings • Any concurrent serious impairment 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Neurology workup (carotid duplex, MRI) • Current function (how active) • Lifestyle modifications 	<p>Preferred is not available</p> <p>Unable to consider until 12 months after the stroke</p> <p>If multiple strokes, usually decline</p> <p>The typical rating for a well worked up mild stroke, with minimal residuals, 150 to 200%. The younger the applicant and the more recent the stroke, the higher the rating</p> <p>Lacunar infarct – Age 75 and over, incidental MRI finding of lone lacunar infarct with no precipitating symptoms, favorable risk factors: Preferred may be possible</p>
<p>Transient Ischemic Attack (TIA) An episode of neurological dysfunction lasting less than 24 hours and no permanent neurological deficit.</p>	<ul style="list-style-type: none"> • Current age • Date of diagnosis and age at onset • Any neurological deficit • Number of episodes • Treatment • Medications • Smoking history • Test results • Active lifestyle • Blood pressure and cholesterol readings • Any concurrent serious impairment 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Neurology workup (carotid duplex, MRI) • Current function (how active) • Lifestyle modifications 	<p>Unable to consider until 6 months after the episode</p> <p>Average rating is Standard to 150% depending on the age</p> <p>For age 70 and over: Preferred possible if remote history of TIA with equivocal findings at the time of medical work-up</p>
<p>Ulcerative Colitis Chronic inflammatory ulceration of the colon (relapsing-remitting type disorder).</p>	<ul style="list-style-type: none"> • Current age • Severity of the disease • Frequency of flare-ups • Severity of symptoms • Medication (ongoing oral steroid therapy) • Hospitalization • Surgery • Weight stable or loss • Testing and follow-up • Complications or concurrent impairments (e.g., rheumatoid arthritis or other inflammatory disease) 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Pathology reports • Evidence of regular GI surveillance (colonoscopy) • Details of hospitalization and hospital reports • Stable weight • Active lifestyle 	<p>The younger the age at application and the more severe the course of the disease, the higher the ratings</p> <p>Mild: Best cases, i.e., well-controlled on non-steroidal medication, no immunosuppressants, >5 years since last attack: Preferred is possible</p> <p>Moderate (including steroid treatment): Standard possible at older ages if more than 5 years since last attack. Up to 350% for recent attacks and at younger ages</p> <p>Severe: May not be insurable until stabilized for 1 year</p>

Underwriting the Long-Term Care Rider¹

The Long-Term Care (LTC) rider is underwritten based on morbidity risk rather than mortality risk and as a result, some proposed life insureds may not qualify for this rider even if they are Standard or better mortality risks. Also, some combinations of Standard impairments may require this rider to be declined.

- The Long-Term Care rider cannot be issued at better ratings/rate classes than the life base policy assessment
- For applications that include the Long-Term Care rider, HealthStyles may be applied to improve the base policy assessment, but the rider itself is not eligible for an upgrade
- Risks with multiple impairments will be reviewed on an individual consideration basis

The Long-Term Care rider is available only if the life coverage is approved. It is NOT available:

- When the mortality rating on the base policy is >175%
- With a flat extra
- To residents of foreign countries and also U.S. citizens traveling outside the U.S. for greater than six months per year (183 days)
- With any increasing rider (Return of Premium, Increasing Supplemental Face Amount)
- Post issue (i.e., the rider must be applied for with the life insurance application)

CONDITION AND DESCRIPTION	LIKELY UNDERWRITING DECISION
Activities of Daily Living (ADLs)	Decline if unable to perform any of the following ADLs or require supervision to do so: bathing, continence, dressing, eating, toileting or transferring
Alzheimer's Disease/Dementia	Decline
Ankylosing Spondylitis	May be insurable with life ratings up to 150% ²
Assistive Devices (including mobility aids)	Decline (examples include: cane, crutches, walker, wheelchair, scooter, hospital bed, stairlift, permanent catheter, respirator or oxygen)
Asthma	<ul style="list-style-type: none"> • Non-Smokers: May be insurable based on life ratings • Asthma classified as moderate or severe disease, or asthma in combination with smoking: Decline

The Long-Term Care rider can be purchased in addition to a life insurance contract. This benefit allows an accelerated payout of a specific proportion of the proceeds of the life insurance as a reimbursement of long-term care costs. Refer to the Technical Guide — Long-Term Care Rider for additional information.

1. The Long-Term Care (LTC) rider is an accelerated death benefit rider and may not be considered long-term care insurance in some states. There are additional costs associated with this rider. The Maximum Monthly Benefit Amount is \$50,000. When the death benefit is accelerated for long-term care expenses it is reduced dollar for dollar, and the cash value is reduced proportionately. Please go to John Hancock's producer website to verify state availability.

This rider has exclusions and limitations, reductions of benefits, and terms under which it may be continued in force or discontinued. Consult the state specific Outline of Coverage for additional details.

2. Best rate class available for LTC rider will be Standard.

UNDERWRITING THE LTC RIDER

CONDITION AND DESCRIPTION	LIKELY UNDERWRITING DECISION
Benign Cognitive Impairment	Decline
Bipolar Disorder (also known as Bipolar Affective Disorder or Bipolar Depression)	<ul style="list-style-type: none"> • Disease diagnosed as severe or new onset, or treated with anti-psychotic medications: Decline • Mild or moderate stable disease: Long-Term Care rider may be insurable based on life ratings
Build	<ul style="list-style-type: none"> • Individuals who have a BMI of ≤ 18.0 or ≥ 40.0 will not be considered • Overweight individuals with arthritis, CAD or other risk factors, and underweight individuals with depression, osteoporosis, and other risk factors may not be considered within BMI of 18.0–40.0
Cancer	If any life rating is required: Decline
Carotid Bruit/Carotid Disease An abnormal sound in the carotid artery caused by atherosclerosis. It is a sign of a risk for stroke.	<ul style="list-style-type: none"> • Unilateral or with favorable investigations: May be insurable based on life rating¹ • Uninvestigated cases with bilateral bruits: Decline
Chronic Fatigue Syndrome Severe fatigue generally lasting six months or longer where all other causes have been eliminated.	<ul style="list-style-type: none"> • Diagnosed over six months ago, not disabled, treated, asymptomatic, without limitations: May be insurable based on life ratings¹ • Diagnosed within the past six months, receiving disability payments, with limited activity or treated with steroids or narcotics: Decline
Chronic Obstructive Pulmonary Disease (Bronchiectasis, COPD, Chronic Bronchitis)	Non-Smokers may be insurable based on life rating ¹
Chronic Pain	<ul style="list-style-type: none"> • Fully active, no ongoing treatment with narcotics or narcotic injections, no assistive devices: May be insurable based on life rating¹ • With co-existing depression: Decline
Coronary Artery Disease (CAD)	<ul style="list-style-type: none"> • Age 45 and under: Decline • Over age 45 and Non-Smoker: Long-Term Care rider may be insurable based on life ratings¹ • In combination with co-morbid diseases (TIA, diabetes, PVD, valvular heart disease): Decline
Crohn's Disease	<ul style="list-style-type: none"> • Mild or moderate stable disease: Long-Term Care rider may be insurable based on life ratings¹ • Disease diagnosed as severe: Decline • Use of steroids 7.5 mg or more daily, or treatment with Remicade, Imuran, Cimzia, Neoral, Purinethol or similar type medications: Decline • Any ongoing weight loss or evidence of osteoporosis: Decline
Deep Vein Thrombosis (DVT)	<ul style="list-style-type: none"> • One episode over six months ago, Non-Smoker: Long-Term Care rider may be insurable based on life ratings • In combination with hypercoagulable state: Decline
Dementia	Decline

1. Best rate class available for LTC will be Standard.

UNDERWRITING THE LTC RIDER

CONDITION AND DESCRIPTION	LIKELY UNDERWRITING DECISION
Depression	<ul style="list-style-type: none"> Stable, mild and moderate with no limitations: May be insurable based on life ratings New onset or severe: Decline History of alcohol abuse, psychotic symptoms, requiring hospitalization, suicide attempt, or treatment with anti-psychotic medications: Decline
Diabetes	<ul style="list-style-type: none"> Type 2 at ages 40 and older, Non-Smoker, blood sugars are well controlled and no complications: Long-Term Care rider may be insurable based on life ratings¹ Type 1: Decline Other scenarios including history of any co-morbid diseases such as CAD, TIA, CVD, kidney disease: Decline Smokers: Decline
Disability	Decline if currently receiving disability benefits
Fibromyalgia This is widespread pain in the muscles, ligaments, and tendons.	<ul style="list-style-type: none"> Diagnosed over six months ago, asymptomatic, active lifestyle, treated only with non-steroidal anti-inflammatory medication, and no associated depression: Long-Term Care rider may be insurable based on life ratings Diagnosed within the past six months: Decline
Frailty	Decline
Handicap sticker or placard	Decline
Kidney Failure	Decline
Kyphoscoliosis A disorder characterized by progressive deformity of the spine.	Mild or moderate deformity, no osteoporosis and asymptomatic for at least six months: Long-Term Care rider may be insurable on a Standard basis
Multiple Sclerosis	Decline
Musculoskeletal Impairment Includes Degenerative Disc Disease (DDD), Joint Replacement, Radiculopathy, Spinal Stenosis.	<ul style="list-style-type: none"> Must be: fully active, no assistive devices, asymptomatic, minimal physiotherapy, and no occupational therapy or surgeries within the past six months: Long-Term Care rider may be insurable on a Standard basis Any ongoing treatment with narcotic pain killers, multiple steroidal injections, history of osteoporosis, fractures, and any pending surgeries: Decline
Neurogenic Bladder or Bowel	Decline
Obstructive Sleep Apnea (OSA)	<ul style="list-style-type: none"> Non-Smoker, compliant with treatment, no rateable build: Long-Term Care rider may be insurable based on life ratings¹ In combination with any co-morbidities such as CAD, diabetes, obesity, PVD, TIA, valvular heart disease, or alcohol abuse: Decline
Optic Neuritis	Unknown cause (i.e., idiopathic, and multiple sclerosis clearly ruled out as the cause), fully recovered, only one episode over two years ago: Long-Term Care rider may be insurable on a Standard basis
Osteoarthritis	<ul style="list-style-type: none"> Mild to moderate disease, active lifestyle, no assistive devices, asymptomatic, no limitations: May be insurable at Standard or better Severe disease, symptomatic, limitations, obesity, ongoing physiotherapy, narcotic use, steroid injections, or pending/recommended surgery: Decline

1. Best rate class available for LTC rider will be Standard.

UNDERWRITING THE LTC RIDER

CONDITION AND DESCRIPTION	LIKELY UNDERWRITING DECISION
Osteoporosis and Osteopenia	<ul style="list-style-type: none"> • Best cases, Non-Smoker, under treatment, active lifestyle, and favorable risk factors: May be considered for Preferred. Cases with mild risk factors may be limited to Standard. Mild or moderate osteoporosis, not compliant with medication, with fracture history, co-morbid conditions, or other risk factors could be +50 to decline • With multiple fractures, T-score >-4.0, Smoker: Decline
Parkinson's Disease	Decline
Peripheral Arterial Disease (PAD, PVD)	<ul style="list-style-type: none"> • Mild disease and Non-Smoker, asymptomatic, active lifestyle, fully investigated with normal ABI scores: Long-Term Care rider may be insurable based on life ratings • With multiple fractures, T-score >4.0, Smoker: Decline
Pneumonia	Proposed life insured over age 70 with more than one episode of pneumonia or any history of aspiration pneumonia within the past three years: May result in a decline
Pulmonary Hypertension	Decline
Rheumatoid Arthritis (including Psoriatic Arthritis)	<ul style="list-style-type: none"> • Mild, stable for over two years, no assistive devices, no limitations to any activities of daily living: Asymptomatic cases may be insurable based on life rating¹ • Treatment with Humira, Enbrel, Arava, or similar medications: A rating will be applied • Severe, multiple joint deformities, currently treated with physiotherapy or occupational therapy, or multiple joint replacements: Decline • Treatment with Remicade, Ridaura, or Kineret: Decline
Supportive Services	<ul style="list-style-type: none"> • Residence in an assisted living facility: Usually decline • Residence in a nursing home: Decline • Receiving adult day care, disability benefits, worker's compensation, home health care, or Medicaid: Decline
Stroke (including lacunar infarct)	Decline
Systemic Lupus Erythematosus	Decline
Transient Ischemic Attack (TIA)	<ul style="list-style-type: none"> • Age 61 and up, Non-Smokers only, single episode more than 12 months ago, asymptomatic with no cognitive or physical residuals: Long-Term Care rider may be insurable based on life ratings • Age 60 and under: Decline • Others or with history of co-morbid conditions such as CAD, PVD, valvular heart disease, diabetes: Decline
Urinary Catheter	<ul style="list-style-type: none"> • Temporary catheter: May be insurable based on all factors of the case • Permanent catheter: Decline
Ulcerative Colitis	<ul style="list-style-type: none"> • Mild to moderate disease with no complications and last flare up more than 12 months ago: Long-Term Care rider may be insurable based on life ratings¹ • Severe disease or any co-morbid history such as hepatitis, cholangitis, amyloidosis: Decline • Treatment with Remicade, Cimzia, Purinethol: Decline
Valvular Heart Disease	<ul style="list-style-type: none"> • Mild to moderate aortic and mitral valve disease, age 50 and older: May be insurable based on life rating • Severe disease, valve replacement or co-morbid conditions such as CAD, PVD or TIA: Decline

1. Best rate class available for LTC rider will be Standard.

Non-Medical Risks

AVIATION

General Guidelines

- Retention and reinsurance are reduced for aviation without an exclusion rider
- Minimum issue age: 21
- Maximum issue age: 74 (age 70 for student pilots)
- Aviation exclusion will apply when maximum mortality or age is exceeded on Individual policies
- Maximum rating considered insurable with aviation: 200%
- Aviation exclusion does not apply on Survivorship policies (if the aviator exceeds the maximum age or rating, he/she can only be issued as uninsurable)
 - If aviator is uninsurable, verification is required that the spouse does not fly as a passenger with the aviator
- Aviation exclusion cannot be applied if aviation is the means of the insured's livelihood
- Aviation must occur in North America (excluding Alaska) and locations must have tower support (i.e., non-remote areas)
- Significant medical, accident, or drug/alcohol history, and/or motor vehicle violations may affect the availability of coverage

PROFESSIONAL ATHLETES

General Guidelines

- Professional athletes on sports teams (including coaches and general managers) are eligible for permanent products only. Athletes such as professional golfers and tennis players may be eligible for Term products
- Maximum issue age: 80
- Maximum exposure per sports team is \$55 million; once the team cap is reached, additional players, coaches and general managers cannot be considered
- Key Person coverage is subject to documented confirmation of a contract with five remaining years

	Professional Athletes on Sports Teams (includes Coaches and General Managers)	Professional Athletes not on Sports Teams
Automatic Binding Limit ¹	\$25,000,000 ²	\$65,000,000
Jumbo Limit	\$65,000,000	\$65,000,000
Retention ¹	\$10,000,000 (per player) ²	\$30,000,000
Team Cap	\$55,000,000	N/A

1. Retention and reinsurance grade down at higher ages and ratings.
2. Assumes no inforce coverage, and within team cap.

Underwriting Guidelines For Foreign Travel

These guidelines apply to U.S. residents including residents of Puerto Rico, Guam and the U.S. Virgin Islands traveling for less than six months per year. Travel for six months (183 days) per year or longer is considered Foreign Residency.

- All products are available
- Applications should not be submitted with any travel planned outside of North America within the next 30 days, until the applicant's return
- Coverage may not be available to individuals traveling to any country where a U.S. State Department travel warning, advisory, or alert has been issued. Military deployment to a war zone will not be considered
- Occupations such as foreign correspondent, diplomat, missionary, security personnel, and foreign aid worker will not be considered

See page 52 for a complete list of country classifications.

CONDITION AND DESCRIPTION	FACTORS AFFECTING THE DECISION	FOR SMOOTHER PROCESSING	LIKELY UNDERWRITING DECISION
Foreign Travel	<ul style="list-style-type: none"> • Which countries and destinations in each country • Frequency and duration of visit (total number of days/year in each country) • Purpose of travel • Age of applicant • Health of applicant • U.S. citizen or permanent resident 	<p>Requirement: <i>Foreign Travel Questionnaire</i></p> <p>Information to include: Travel questionnaire outlining destination(s), frequency and duration of visits must be submitted with the initial documents</p>	<p>Best Case: Super Preferred available for travel to A and B countries for up to six months, and to most E countries¹ for travel up to two weeks</p> <p>Standard: Available for travel to C countries for more than three months up to six months</p> <p>Decline: any travel to Afghanistan or Iraq</p> <p>Travel to other E countries¹ for up to four weeks – individual consideration will apply</p>

1. Travel to E countries will be considered only for major cities.

Underwriting Guidelines for Non-U.S. Residents

John Hancock offers competitive life insurance coverage for your high net worth (HNW) global clients with ties to the United States. The following section provides details about our requirements and guidelines for this market.

Who Are Your Clients?

For the purposes of obtaining John Hancock life insurance coverage, your foreign national client must:

- Reside outside of the U.S. more than six months (183 days) each year,
- Have a “U.S. connection”/meaningful tie to the U.S., AND
- Have a global minimum net worth equivalent to \$5 million U.S. dollars or more.

In addition, coverage may not be available for individuals residing in or traveling to any country where a U.S. State Department travel warning advisory or alert has been issued. United States military personnel residing in a foreign country or deployed to a war zone will not be considered.

U.S. Connection Guidelines

Foreign national clients must have the following physical and financial presence in the United States:

1. A minimum 15-day stay annually,
2. An existing U.S. financial presence including a U.S. bank account, AND
3. U.S. assets to help justify coverage — specifically 25% of assets required to justify the amount of coverage applied for must have been held in the U.S. for a minimum of six months prior to application.

In addition, foreign national clients must also meet one of the following:*

1. Own real estate in the U.S.,
2. Own a business in the U.S., or working for a U.S. company,
3. Have a U.S. tax liability, OR
4. Have an immediate family relation residing in the U.S.

Additional Requirements

There are also requirements regarding solicitation and financial justification that apply to foreign nationals:

- **Solicitation:** All solicitation must take place in the U.S., regardless of the country of residence. Solicitation is defined as the entire new business process, e.g., illustration, application, and completion of underwriting requirements including examinations and policy delivery. In addition to U.S. solicitation, the life insurance policy must be paid for from an existing U.S. bank account (see “Parameters” on page 48 for more details).
- **U.S. financial presence:** Of the assets that the owner of the life insurance policy must have in order to justify the amount of coverage applied for, 25% must be U.S. assets that have been held for at least six months prior to the application (see the example on page 50).

Help Ensure a Smooth Application Process

Once you’ve established that your client qualifies for U.S. life insurance coverage, use the following information to ensure your case meets John Hancock’s foreign national guidelines and parameters.

*If the owner of the policy differs from the insured, the owner should also demonstrate U.S. connections.

UNDERWRITING GUIDELINES FOR NON-U.S. RESIDENTS

Foreign National Parameters

Before submitting an application, please check to ensure your case falls within the following parameters. Additional guidelines and tips are included on pages 49-50.

Minimum Issue Age	20
Maximum Issue Age	75 ^{1,3}
Minimum Net Worth²	\$5 million U.S. or equivalent
Minimum Face Amount	\$1 million
Best Class Available^{3,4,5}	A and B: Super Preferred C: Preferred
Maximum Mortality Rating	200%
Maximum Capacity⁶	\$40 million for A and B countries ¹ \$24 million for C countries ¹ \$25 million for Canada
Jumbo Limit⁷	\$65 million for A and B countries, and \$45 million for C countries ⁸
Ownership Structure	<ul style="list-style-type: none">• The owner must have a U.S. Tax ID or SSN, or must complete W-8BEN• Two-party ownership (i.e., personal ownership) is allowed• Offshore trusts are not allowed
Solicitation	All solicitation must take place in the U.S, regardless of the country of residence. Solicitation is defined as the entire new business process, e.g., illustration, application, and completion of underwriting requirements, including examinations and policy delivery. Please note that the applicable law and state version of an application should be the state where there is an independent connection with the policy owner and where the owner signs the application. For example, if the foreign national has a home in Florida and was solicited and will be signing the application in Florida, a Florida state version of the John Hancock application should be submitted.
Products	All John Hancock permanent fully underwritten products are available. The same capacity is used for both individual and survivorship coverage. ⁹ For foreign nationals who are not U.S. citizens, Term coverage is available only for key person U.S. business purposes.

1. Applicable country code and maximum capacity is based on where the proposed insured resides for more than six months per year.
2. Some exceptions may apply for U.S. citizens living abroad; please consult with your underwriter.
3. Best Class will be reduced for U.S. citizens living abroad who do not have a net worth equivalent to \$5 million U.S. dollars or more. Automatic capacity for C countries is limited to issue age 70.
4. Eligibility for HealthStyles credits may be considered for Country A risks.
5. Non-HNW applicants of C countries must reside in an approved major city and require a flat extra rating. Please consult with your underwriter.
6. Capacity may vary in the following scenarios:
 - For ages 71-75 (where applicable)
 - For residents of Singapore, China, Hong Kong, and Macau
 - For Term products
 - For M-proprietary products
 - Further details on capacity and country codes can be found in the Field Underwriting Guide on John Hancock's producer website
7. The Jumbo Limit is the sum of all inforce coverage plus pending formal applications with all companies including John Hancock. Existing insurance that is being replaced will be deducted, providing we receive a fully executed absolute assignment replacement form transferring ownership to John Hancock.
8. For M-proprietary products, please confirm Capacity and Jumbo Limit with your John Hancock M-dedicated underwriter.
9. Please note that for survivorship coverage, both lives must meet issue age and maximum mortality rating requirements.

UNDERWRITING GUIDELINES FOR NON-U.S. RESIDENTS

Scenarios Where Coverage is Not Available

Please note the following scenarios where John Hancock does not offer coverage to foreign nationals:

- **Term products** — Foreign nationals are not eligible for Term coverage except when a U.S. business is insuring them for key-person or business purposes. (Foreign nationals who are U.S. citizens may qualify for Term insurance to be used for any purpose.)
- **Certain occupations** — Clients in certain occupations, and in some cases their family members, are uninsurable – for example, politically exposed persons (PEPs) or their family members, government or military personnel, missionaries, journalists, diplomats, members of the judiciary, security personnel, and trade union officials.
- **Aviation** — Individual policies may be offered to private pilots only, with an aviation exclusion; survivorship policies not available with aviation risk.
- **Riders** — Your foreign national clients may not include underwritten riders in their life insurance coverage, e.g., Waiver of Monthly Deductions, Disability Payment of Specified Premium, Return of Premium, Increasing Supplemental Face Amount and Long-Term Care. In addition, currently the John Hancock Vitality Program (Healthy Engagement Rider) and John Hancock Term with Vitality are not available to foreign national clients.
- **Travel advisories** — Coverage may not be available in any country with a travel warning or alert in effect.

Underwriting Requirements

Avoid delays in the underwriting process. The following checklist details what to include in an “in good order” submission.

Financial underwriting requirements

Financial underwriting is a critical part of the underwriting process that examines the economic feasibility of the case at hand, and allows the underwriters to consider the insurable interest at the time of the application. Please submit the following requirements:

- ✓ *Foreign Resident Inquiry* form — submit with informal application
- ✓ A broker’s cover letter of introduction, to include detailed travel information. (See “Tips to Packaging Your Case” on page 50)
- ✓ A completed *Financial Supplement for Personal Insurance* OR *Financial Supplement for Business Insurance*
- ✓ Proof of identity (e.g., copy of passport or visa)
- ✓ Letter of reference from financial institution with all account values and duration of relationship. If not provided, detailed account statements must be submitted to support the declarations on the *Financial Supplement for Personal Insurance* or *Financial Supplement for Business Insurance*

Additional considerations

In addition to these requirements, the underwriter also takes into account insurable interest/insurable loss, and the net worth and assets required to justify the requested coverage.

• Insurable interest/insurable loss

The first consideration in financial underwriting is to establish that an insurable interest exists. The concept of insurable interest is fundamental to ensuring that the insurance applied for makes economic sense. We consider insurable interest as existing when the owner (if other than the insured) and the designated beneficiary have a financial interest in the continued life of the insured and are able to demonstrate a measurable financial loss should the insured die prematurely. The loss should equal or exceed the requested insurance amount. The underwriter will examine the amount of potential loss suffered by an owner/beneficiary in the context of the requested death benefit, purpose of coverage and financial profile (including the ability to pay ongoing premiums). It is the risk of loss that helps the underwriter quantify the amount of insurable interest and ultimately justify the requested death benefit.

UNDERWRITING GUIDELINES FOR NON-U.S. RESIDENTS

• Justifying the coverage

John Hancock underwriters also consider a client's global net worth when determining capacity and justification for the coverage requested. However, 25% of the assets required to justify the amount of coverage applied for must be held in the U.S. for a minimum of six months prior to the application.

EXAMPLE

Application	<ul style="list-style-type: none">• 55-year-old male, citizen of the U.K.• Applying for \$10 million (typically would require net worth of \$7-8 million to qualify); no coverage in force with John Hancock• Net worth — \$12 million (\$3 million U.S.; \$9 million foreign)
U.S. Connection	<ul style="list-style-type: none">• \$3 million U.S. brokerage account (i.e., more than 25% of the \$7-8 million required to justify face amount), and• Three week-long trips per year to Miami for business
Amount Offered	\$10 million as applied for

Medical underwriting requirements

- ✓ John Hancock's routine underwriting requirements (see interactive Field Underwriting Guide on John Hancock's producer website)
- ✓ Medical records (five-year history) from all the appropriate physicians and medical facilities
- ✓ APS must be provided in English. John Hancock does not cover translation fees and the translator should be at arm's length to the sale

TIPS TO PACKAGING YOUR CASE

Take advantage of the following tips to help streamline the application process.

✓ Identify your client:

- Determine if your client meets the guidelines and requirements outlined on page 47
- Check that your case falls within the parameters and scenarios on pages 48-49

✓ Submit an informal application:

- Include the *Foreign Resident Inquiry* form
- Include a broker's cover letter of introduction with the following information:
 - Details of residences and travel outside country of residence
 - Source of your referral to the proposed insured
 - Proposed insured's background information and mention of any other publicly available information
 - Source of insurance premium: at John Hancock we require premium to be paid from a pre-existing U.S. bank account and billing address. It is important to note the account history and how long it has been in place
 - Time spent in the U.S.

UNDERWRITING GUIDELINES FOR NON-U.S. RESIDENTS

Risk Class Available By Country Code

RISK CLASSES ¹	COUNTRY CODE CLASSIFICATION
